

TRADITIONAL MOUNT IN-WALL LOUDSPEAKER

OVERVIEW

Created to provide a cost effective means of sonically blending composer models and in-ceiling models from the director Collection, these three models round out the collection. Simply selecting a speaker with the same numeric designation from another collection will guarantee the speakers have the same sonic signature.

SLEEK & STYLISH

Drawing upon the ancient mathematical and artistic Golden Ratio, each of the CIW60 speakers have been designed with a sleek and stylish rectangular profile, making the speakers much more attractive in appearance to the bulky footprint of traditional in-wall speakers. Rather than obstructing the look of accompanying frameless TVs, the CIW60 complements the room with a modern and slim, bezel-less frame.
