

MOS36K MINIMAL OPENING SYSTEM

Our smallest yet largest feat so far, the Minimal Opening System™ is a revolutionary fully in-ceiling audio system that mimics the appearance of 4" designer lighting.

Customized to match the unique appearance of home lighting, the custom finish blends seamlessly into the ceiling alongside lights for a sophisticated uniform look.

Uniquely engineered to grant a simple installation process, built-in rails secure the subwoofer enclosure into the ceiling, with the exact dimensions to ensure a tight fit between ceiling joists; and then a simple twist & hex screw will lock the Mid-Range speaker into place.

The included Trim-Ring Kit includes 6 different designs, offering the latest, invisible flushmount trim-ring options, and both round & square grilles, allowing the ideal trim to be selected to match any interior.

**SIMPLE INSTALL,
HUGE SOUND**
